

Health and Safety Policy

Bridgeport Energy is committed to conducting its activities with the health and safety of its employees, contractors and third parties as a fundamental consideration. Bridgeport Energy believes that all injuries and industry related diseases are preventable and therefore strives to continuously improve its health and safety performance.

To meet these commitments the Company and its contractors shall:

- Manage health and safety matters as a critical business activity;
- Delay or stop activities where effective mitigation controls are not in place to manage identified hazards;
- Apply a systematic approach to all activities that demonstrates continual improvement in health and safety performance;
- Assess the health and safety hazards associated with all activities and employ mitigation measures to reduce those hazards;
- Include health and safety performance in the appraisal of staff and reward accordingly;
- Require contractors to manage health and safety in line with this policy;
- Set targets and regularly monitor, audit and report performance against those targets; and
- Apply and demonstrate compliance with applicable occupational health and safety laws and regulations.

The implementation and effectiveness of this health and safety policy is the responsibility of all Bridgeport Energy employees and shall be reviewed annually by Bridgeport Energy Management. The Executive Directors of Bridgeport Energy are accountable to the Board of Directors for ensuring this health and safety policy is implemented. This policy shall be updated every two years.

Chris Way
